Amount of bonds subscribed for by Oakland banks, \$750,000.

Gross total pledged for erecting the hotel, **\$1,542,000.**

Over \$400,000 has been paid in on the subscribed capital stock. The remainder---less than \$350,000---can be called for as building operations proceed. A splendid site has been purchased, excavated and foundation laid, and over \$90,000 cash remains in the treasury of the hotel company.

Walter J. Mathews, the consulting architect, says that if contracts are let now the hotel can be built for \$150,000 less than it would have cost two years ago, owing to the reduction in the cost of material, the wages of labor and various incidentals.

DIRECTORS OAKLAND HOTEL COMPANY—Gentlemen: The undersigned citizens and business men of Oakland do hereby urge respectfully but most earnestly that you proceed with reasonable dispatch to erect the new hotel projected nearly two years ago. Practical wisdom and public spirit are united in favor of this enterprise, which is vitally important to

Nore of the arguments originally advanced when the hotel company was organized has lost force; indeed, the necessity for a commodious, high-class hotel of the modern type is greater today than ever before. Moreover, the hotel must be completed if Oakland is to hold her good name and place among the progressive cities of the country. After advertising the project so extensively, the city's credit and standing will be much impaired if the enterprise is not successfully carried out.

We respectfully urge upon you, gentlemen, to show your faith in the city, your regard for the good name of Oakland, and your public spirit by proceeding with the work inaugurated with so much enthusiasm and such high hopes. You have the good wishes of the people of Oakland behind you. Their co-operation is assured. Go ahead, we beg of you, and failure cannot result.

When the body becomes run down either as a result of overwork, worry or a severe illness, an examination of the blood would show it to be weak and watery. This condition is called anaemic, which is the medical term for "bloodless." The common symptoms are paleress of the lips, guns and cheeks, shortness of breath and palpitation of the heart after the slightest exertion, dull eyes and loss of appetite. American itself is a dangerous disease and it may gradually pass into consumption. It must be cured by treating its cause, which is the poor condition of the blood. The vital fluid must be made strong and healthy thereby enabling it to carry the necessary nourishment to every tissue of the boly.

Played at Ye Liberty and Large Audience Applauds.

"The Man on the Box," as presented by the Bishop players at the Liberty Playhouse last evening, is as enloyable and entertaining a performance as Oak-iand has seen for many months. The play is a comedy—a dematized version of the story of the same title by Harold MacGrath, which has been a "best seller" for two or three years past and which has been prepared for the stage by Grace Livingston Furniss.

George Friend, in the title role last enening, scored a triumph, if such a evening, scored a triumph, if such a thing is possible in comridy. He is temporarily installed, army officer and clubman that he is, as the groom, and then butier, in the home of the girl he loves and manages the humor of the situation so irresigibly that while bewildering the girl, who half guesses his secret, he causes more real laughter than the Liberty has heard for weeks. Friend's performance is a good one and he was deserving of all the applicable he received last night.

Debs and His Doctrines Sponsored by State University.

The University authorities at Berkeley granted the proponents of Eugene Dels and the sort of political thing for which he stands permission to gold a meeting last Saturday in the Greek Theater. the great open-air auditorium on the University premises. Some time before that the Order of Elks had sought permission to hold a meeting there and been refused, with the reason that University premises could not be used for other than educational or instructive purposes. It is thus to be assumed that a harangue by Debs, candidate of the Socialist party for President and from his record and utterances entitled to be called the prime anarchist of the land, is instructive. In view of this premise it is proper to review some facts that are common knowledge.

Eugene V. Debs first gained notoriety in 1894, as the inciter and leader of he great railway strike. This strike amounted to armed insurrection. Authority of courts and civil government were alike defied. Resistance by force was urged by Debs and resorted to in several of the large cities of the country. The blood of hundreds of men was shee, millions in property were destroyed, commerce was held up, inflicting untold loss on thousands; industrial enterprises were ruined, and for a time there was grave fear that civil war wa on. The spirit that dominated the determined attack upon authority was that of Debs. He made no preteuse that he sought any other? end than the destruction of government; and one of the results of regular thing in times past for candidates for the highest office in his defiance of everything and everybody was a sentence in jail for six months by a Federal judge.

In the years since that bloody clash Debs has continued to urge the overthrow of laws, courts and the constitution. He is now touring the Pacific Coast, in a "red special." He sought 'permission to hold a meeting at Stanford University and was refused, but a like request was granted at Berkeley, and he addressed a throng estimated to number three thousand.

What happened is told in the reports of the several newspapers of San Francisco and Oakland. The Call starts its report thus "Red flags and pennants, the color emblems of the ultra-socialistic cult, were waved frantically on the campus of the University of California today in welcome to Eugene Debs, Socialist candidate for President of the United States. Still harder waved the emblems when they punctuated the cheers of 1500 or more when Debs attacked the constitution of the United States." Among the things that Debs is reported to have said are these: "The socialistic movement means socialistic revolution, and under it the constitution would be absolutely abolished, not reaffirmed." "I hold the Supreme Court of the United States in silent contempt."

From the Caronicle it is learned that "the stage was filled with Socialist delegates, many of them carrying red flags, the center of the stage being occupied by the band, which played the 'Marseillaise' upon the entrance of the candidate."

The Examiner says: "Debs was warmly received. * * * Ile made a bitter titade against Judge Peter S. Crosscup of the Federal bench * * the Federal judge who sent him to jail for contempt during the big railway strike."

THE TRIFUNE reports Debs as saying this: "I am not so sure that we would need a Supreme Court. We are not seeking a reform, we socialists. We are not seeking to patch up the present system of things, and if the constitution or the judiciary would stand in our way we would sweep them out of existence."

The meeting was presided over by Max Stern, a senior in the University and president of the "Social Progress Club." From the Call's report it is learned that "I'resident Wheeler, who attended the meeting, me Debs at the close."

Now, then, the important thing to the orderly citizen of California is not the tenets of those who call themselves socialists, nor the ranting of the lawless person who leads the movement; it is that these should be given impetus and opportunity through the implied indorsement of the great University supported by the State of California for the purpose of improving the standard of citizenship.

We see here an unqualified attack upon authority, upon the constitution and the Federal courts-upon the institutions which hold society together; its significance greatly heightened through being sponsored by the State's greatest institution of learning; student presiding and the president of the University being present and "meeting" the denunciator of law, order and the constitution.

It is bound to be accepted that the sort of thing for which Debs stands is not repugnant to the president of the University. There have been signs of this for some time. Debs' "keynote" is denunciation of the courts. Just a few weeks ago George H. Boke, a law instructor of the University, attacked the Appellate and Supreme courts of this State in much the same manner that Debs attacks the Federal courts. Other members of the faculty have given signs of being more or less hospitable to some of the doctrines that Debs enunciates

There is warrant for saying that Debs and his red banner hosts found a congenial atmosphere at Berkeley. A student body sponsored them, and the president of the institution listened and then "met" the apostle of disorder.

How do the people of California like this? Are they pleased that their great educational institution thus lends itself to anarchistic propaganda? Do they think the president of it is unsophisticated and did not know what he was doing when he granted Debs the use of the University auditorium, or are they aware that he is wise to all the political methods and influences, and knew what he was about? Are they taking account of the undoubted trend this event will give as a church door, but 'twill serve. Had it been larger it the State's educational institution? Are they going to feel more inclined to support an institution that welcomes such doctrines as Debs teaches?

There is a great deal about this outburst of anarchy under the name of socialism, under the auspices of the State University, for the orderly citize i who wants to feel the protecting arm of authority to think over. It might not be disquieting if it had taken place of its own motion, in a rink or a sand lot; but under the approval and on the premises of the State's great institution of learning, with the president of the same listening and "meeting" the speaker who demands that the constitution and the courts shall be abolished, it contains much food for thought, and some cause for apprehension.

The Situation in New York.

Although net favored by a majority of the delegates to the Republican State convention, Governor Hughes will head the ticket again in obedience to the President's wishes. Judge Taft also signified his desire for the Governor's renomination in a letter stating that he regarded Hughes' name at the head of the State ticket as his Socialistic propaganca, perhaps it would be appropriate for the essential to Republican success in November. That may be so, but | State University to swar colors with Stanford. The cardinal seems

of the Albany Evening Journal, former Governor Odell, Senator Platt and other veteran leaders in the Empire State, who opposed Hughes' renomination on the ground that it would cause a large defection from the Republican ranks. Whether the determination of the administration to make him the candidate will strengthen him with the masses remains to be seen. In 1882 the Arthur administration forced the nomination of Secretary Folger, an able and estimable man, but he was defeated at the polls by a majority of 192,000. White House influence has been rather strenuously exerted of late in concentions and primary elections, and there is a growing feeling that it is being pressed too far. We trust that no mistake has been ; iade in New York. Hughes is a good man and ought to be re-elected, but that is an old proverb that a horse can be led to water but cannot be made to drink. Nor can we believe that the nomination of Hughes was vital to the success of the Republican national ticket. The statement credits Bryan with a strength he does not possess and gives his candidacy a dignity and importance it does not deserve.

Taft to Start on a Speech-Making Tour Monday.

Next Monday William H. Taft, Republican candidate for Presi dent, starts on a "stumping" tour. Such action has not been the regular thing in times past for candidates for the highest office in the land, but it has not been unknown. Indeed, we have a decided interaction Congress which will be held in exception in the activities of William Jennings Bryan. Democratic exception in the activities of William Jennings Bryan, Democratic candidate for President in the three times that he has come before the people in this capacity. It may, indeed, be held that this is not a fair sample, but it must be accepted as in some sense setting

There is bound to be discussion as to the reason that impels Mr. Taft to this course of action. It was accepted as the plan, immediately after the nomination, for the Republican candidate to remain at home and do his best to preserve the more dignified traditions. He has followed this plan for two months and appears to have found porch cambaigning and casual utterance to result in ennui. This restlessness, together with a feeling that Republicans in some of the States are not worrying enough, is probably responsible for the change of plan, and now the energetic candidate will address the masses in various S ates of the Middle West, and lend the force of personal contact to the long-distance efforts to arouse the party

Mr. Bryan is already at it to his full bent and power. Through long experience he has a valuable knowledge of the "psychology of a crowd." It has been said of him that he is a master at "plausible and dextrous presentation and invention; a veteran sophist and fallacy-maker; a trainer hunter of applause; a skillful suggester of falsities; no friend to it convenient truth," and that he "plays flaw lessly on the prejudice, the passion and the ignorance of crowds. He is undeniably a campaigner of some effectiveness.

It is probably not believed there is any danger of Bryan's election, but it may be realized that it is not "good politics" to permit tock part. him to cavort and utter himself up and down the land unchallenged.

Taft's effectiveness does not lie in half-statements and stage tricks. His is a big, good-natured, honor-bright personality. If it be said that his speeches are not "catchy" in the sense that Bryan's are. it may also be said with perfect truth that he is able to convey something of that sincerity, candor and straightforwardness which are his undoubted characteristics to those who listen to him. The crowd likes and respects him. It believes that he knows what he is talking about, and that he believes it. He has the great art of having no art. He persuades without humbug. Without striking forensic gifts he achieves the fullest tasks of the orator. He impresses his hearers as a man of lofty character and singular directness of purpose-one whose high ideals are the inspiration of his every action. It follows that he does not leave the impression of groping for justification--for an issue--and covering the action with

We may expect so ne illuminative campaign utterances when Taft gets under way. His speeches will be read with keen interest, having at first been listened to with an attentiveness that it is certain some political orations are not receiving. That they will carry conviction is but to say that the man known to be sincere still anothing appeals to men when he expresses himself.

The Japanese manifest a friends to stub their toes on. most friendly disposition toward this country, and there is not the slightest visible evidence of anything but a peaceful intent so far as another woman. the American nation is concerned. The war with Russia proved very exhausting to the Mikado's empire, and the pacification of they don't care for them merely on Korea and Formosa has consumed not a little money and energy. Japanese statesmen discern the necessity for a period of peace in wrong quite so often as expert Judgwhich to recuperate the waste of war, and of retrenclment to lighten the burdens of taxation. Hence the idea that they are plotting war to being thought richer than he is in with so opulent and puis ant a nation as the United States is absurd. Hostile designs are disproved by the scaling down of a military establishment much infector to our own.

The Republican majority in Maine is not as deep as a well nor would have better harmonized with the sweeping majorities Taft is going to roll up in other States. While the Republicans elect all the State officers, the four Congressmen and the Legislature, a Republican majority below 8000 is an unusual thing in Maine. Local issues brought out a full vote and drew heavily from the normal Republican strength. The Democrats will point to the result as a Roland for the Oliver of Vermont, but it has no practical significance so far as national politics is concerned. All New England is impregnably Republican, and so long as the great Middle States are in line there is no call for apprehension.

The real estate dealer who tells the public that Oakland is a good town to invest in, and then privately argues that it is destined to be a second-rate place unable to support a first-class hotel, is handing bunk to somebody. Either his laudation of the town is a false pretense or his knocks against the new hotel are insincere and prompted by considerations he is unwilling to disclose.

Since Berkeley has displayed so much sympathy for Debs and it is not the view of Timothy L. Woodruff, Thurlow Weed Barnes more at home in the Greek Theater than on the campus at Palo Alto.

BASE OF REQUEST.

The request was made by Attorney Sullivar, who represented a rival telephone company, which latter, it was said, was willing to pay \$750,000 to the city for the privilege and to have the franchise of the Home Company out of the way. Sullivariance of the said of the way. Sullivan still further pointed out that the supervisors were not acting in a hidicial capacity in the granting of the reau st. for the reason that all they roquist, for the reason that all they would have to do would be to allow the cour s to determine the matter, with the attorney-general appearing in the name of the people of the municipality.

ARGUMENTS IN OPPOSITION,

Attorney William Thomas of the firm of Thomas, Gerstle, Frick and Breedy appeared in behalf of the Home Tele-phone Company and argued that the comphone Company and argued that the company had been greatly injured by the unwarranted charges which the petitioners lad made against the corporation. The company necessarily had to spend a great deal of money here and a great deal of that money had to be brought from the outside and proceedings of the kind before the board tended to make it difficult to procure money where others wise there would be no difficulty exwise there would be no difficulty ex-perienced. He declared, further, that the company was required to have its plant completed in 1911 and that there pash completed in 1911 and that there was not left new a single day which could be spared in carrying out the conditions of the franchise. In the completion of the work there were to be hundred; of thousands of dollars expended in conjunction with the enormous amount which had already been expended.

which had already been expended.
CITY TO REFUND.

He also made the assertion that if the city should be successful in getting a decision to the effect that the franchise was illegal, the city would be compelled to refund to the corporation all the money that the latter had expended in the carrying on of its work to the extent that it had been carried on up to the present time which was in the neighborhood of \$2,000,000, and that was a great deal #2.00.000, and that was a great deal more than the rival company, which de-sired to have the Home Telephone Compans out of the way, had offered to the city for the trouble it proposed. The supervisors seemed to favor the letting of the matter rest as it is at present and voted to deny the request
